☀Project Deliverables

You are not allowed to change any style or layout of the design – this design is fully responsive to all media platforms.

1. Experience of server migration issues is essential

2. Advance knowledge of MySQL, CSS, Java Script, PHP skills is needed.

3. You will have a proven track record and advanced knowledge of HTML5, MYSQL, PHP, XHTML, CSS2 & CSS3.
4. Experience of working with feed is essential. Experience of copying scripts from previous designs and adopting to the responsive layout is essential.

We will provide the necessary details as much as possible to help speed up the development process.

The developer is required to sign our FTP access terms and conditions, where we will provide you the FTP, database and admin access.

This project will remain open until a suitable freelancer is found.

The following is a complete list of all project deliverables.

DOMAIN MIGRATION

We want to migrate the DOMAIN 1 database and scripts to DOMAIN 2.

You will ensure the integration is smooth and mirror the original domain before we make the old domain offline.

I am looking for an experienced PHP expert with domain files migration experience and

can provide precise debugging during the migration process. All existing code written in

PHP which may requires precise debugging to identify and fix any issues during the

migration process.

You'll need to have a deep knowledge of the language and be able to troubleshoot

complex problems quickly and effectively. Ideally, you'll have extensive experience

debugging/migrating of domains file from one server to another server and be able to

provide positive results in a timely manner. If you think you are the ideal candidate for

the job, please don't hesitate to get in touch.

Deliverable

- Domain 1 and Domain 2 are different in name

- Mirror the setup from Domain 1 to Domain 2

- Transfer all the files from domain 1 to domain 2 ftp and cpanel.

- Ensure all the database links and scripts are adjusted to the new domain and its path.

- Update the htaccess file where necessary for the new domain

- Setup security restrictions where necessary to prevent directory access and views

- Ensure the domain MySQL database is linked correctly to the new domain.

- We are looking for an individual or organisation who has substantial experience and knowledge to complete this project.

After shortlisting has taken place, the successful developer will be contacted. Therefore if you have not heard from us within 48 hours, you should assume that you have not been shortlisted on this occasion.

Please note your recent feedback from your clients will be read online before making the final decision.
Project Cost:
Fixed Price Quote and Your Approach

Constraints
The project is to be delivered to agreed timescale.

- **Deadline:** within 2 day

- **Freelancer Location:** UK (preferred)

FTP ACCESS AGREEMENT

1. SITE DESIGNER/DEVELOPER OBLIGATIONS

- Please note the ISP will log all activity whilst connected via FTP to the Jobsite and other sites Server(s).

- You will not move out of your domains directory structure. This is defined as anywhere above /home/sites/www.(above)

- You will not attempt to view, copy, edit or otherwise manipulate any file outside of the directory you are told to view.

- You will not operate, compile or execute any software that scans, monitors or attempts to modify the operation of the Server.

- You will not run any software that continues to run after the session has finished, this includes but is not limited to egg drops, distributed computer projects or monitoring software.

- The Site Designer/Programmer shall not give details of this agreement to any other person nor will they disclose access details including but not limited to usernames, passwords, ip address's, hostnames or port numbers to any other person.

OBLIGATION OF CONFIDENTIALITY

- The Site Designer/Programmer undertakes to ensure that their username and password are kept secure at all times.

- The Site Designer/Programmer agrees that the information in the FTP/Domain from the Client is confidential, proprietary and may contain trade secrets.

- The Site Designer/Programmer understands that it will be treated in confidence. The Site Designer/Programmer agrees not to disclose this information to any third parties and that my obligation of confidentiality shall extend for a period of three (3) years from the date of disclosure by the Client.

1) COMPANIES RIGHTS AND OBLIGATIONS

- The company reserves the right to suspend or terminate this agreement at any time if either a breach of this agreement is logged or, if security issues that may affect the service offered to other clients is affected or threatened.

- The company reserves the right to modify this agreement at any time, with no notice if security issues arise that may affect the service offered to other clients.

- The company will without warranty or guarantee, pursue reliable operation of this service.

- In the event that a Site Designer or Developer is in breach of this agreement, The Company reserves the right to cancel access to this portion of the service without notice. If the breach is in contravention of any section of the Computer Misuse Act, The Company reserves the right to suspend or cancel the main contract and instigate legal proceedings.
